Historical Traveling Exhibit

Host information and planning guide

Complete eight-panel exhibit

Purpose and exhibit description

The Historical Traveling Exhibit brings Federation history directly to synagogues, schools, agencies, senior communities, JCCs and other Jewish organizations throughout metro Atlanta. It is designed to educate, engage and connect visitors while supporting community programming and conversation.

The exhibit is a modular community resource intended for thoughtfully scheduled rotations of approximately 2–4 weeks per host site. Placements are coordinated to balance community impact, geography, educational opportunities and transportation.
