

IMPACTREPORT

Innovation

The Jewish Federation of Greater Atlanta's Innovation Initiative was born out of the enterprising spirit which runs through our Jewish community in an effort to encourage and nurture creative progress in our city and beyond. We are a community idea accelerator created to offer guidance, connections, and resources for our city's Jewish changemakers from start-ups to legacy organizations.

COURAGE

We stand up for our innovators and recognize the courage it takes to pursue their ideas and make a difference. Learning from failure is equally important as celebrating victories.

PROGRESS

Impactful ideas take time, concentration, and adaptability. We provide the space and support necessary to empower our grantees to take measured steps toward success.

CONNECTIVITY

Our ecosystem of creators actively work together as we offer guidance and resources to bring their ideas to life. From mentorship to education, we connect and equip grantees for viability and success.

In January 2022, Innovation launched Jewish Atlanta's FIRST

"The best JEDI solutions come directly from those most proximate to JEDI issues."

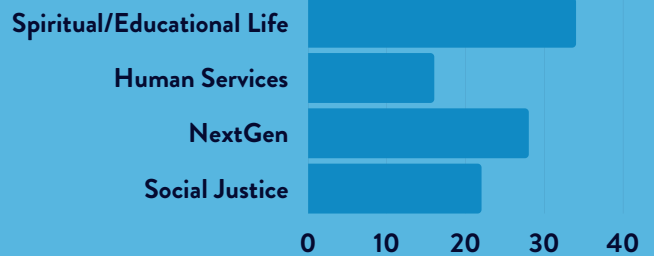

- Victoria Raggs, CEO and Founder of Atlanta Jews of Color of Council

\$72,000 Awarded

31 agencies awarded funding for JEDI programs

Propel Funding Impact Areas

Accelerator grants for new community ideas

\$511,000

Awarded in Propel Grants during FY22 and FY23

"In addition to having the opportunity to impact the health of the Atlanta Jewish community, we've gained incredible mentorship, guidance, and learning from the Innovation team."

- Karen Grinzaid (Executive Director of JScreen at Emory University)
