### Next Steps:

Currently we are reassessing all 70+ agencies to determine the security enhancements that have been implemented and what each may need today. This will clarify if additional funds need to be raised and how they will be allocated.

Additionally, a LiveSecure Allocations Committee has been created to review applications and allocate LiveSecure funds appropriately based on the needs identified. Federation's community-wide security team will serve as expert advisors to the committee.

You can help to significantly scale up our security operations to ensure that every member of our community can safely and openly participate in Jewish life, assured that they can LiveSecure.
