

IMPACT REPORT

Making Jewish Places

Making Jewish Places (MJP) increases Jewish engagement by empowering local communities to create sustainable Jewish programming that enriches a person's Jewish experience. This initiative's focus is on more intimate Jewish neighborhoods with the potential to have a tremendous impact. In addition to financial resources provided to organizations and individuals, Making Jewish Places provides mentorship, strategic insight, and programmatic development to help create more meaningful opportunities for engagement. MJP funds programming in areas with limited Jewish resources.
